**Wed Oct 7: Group Advising for Junior Biology majors.**

The Biology Department wants to highlight the resources we have available to our majors. Come here more about getting involved in research, talk with a pre-health advisor, learn about services offered at University Career Services, get advice about course selections, learn about our new major called quantitative biology, and more.

**Details:** 4-6 PM in Coker 201.

**Tues Oct 13: Group advising for first year students**

(Freshman who are declared Biol majors or who are interested in Biology as a major may attend. **Registration required**—first years will receive information via email from academic advising.

Room booked 5-7 PM Wilson Hall 107

**Tues Nov 3: Information Session: Study Abroad for Science Students (TASSEP Program)**

The TASSEP exchange program for science students is a vehicle that permits students to study their chosen discipline at a foreign university. The agreement insures that students receive full credit for courses taken at the foreign university. Students pay tuition and fees at their home institution and thereby receive student status at the foreign university. See: <http://studyabroad.unc.edu/tassep/> for more information.

**Details:** 5-6:30 PM location Wilson 107
